

Name: _____

Help the Tortoise and the Hare get through the maze to meet each other. You can start from either side or try both at the same time!

Name: _____

The Adventures of Tortoise and Hare: The Next Gen is a modern retelling of an old fable. Can you update another of Aesop's fables to be set in the modern world while keeping true to the moral?

The Two Goats

Two goats happened to meet, one on each side of a deep chasm with a mighty mountain river beneath. The only way of crossing the chasm was over the trunk of a fallen tree, and it was so narrow that not even two squirrels could fit on it at the same time.

But the goats were proud, and their pride would not let either one stand aside for the other.

One set her foot on the log. The other did the same. In the middle they met. Neither would back up to let the other pass, and so eventually they both fell, to be swept away by the river below.
